ZODIAQ® QUARTZ SURFACES

Zodiaq® is an advanced composite material made of 93% quartz, a DuPont proprietary binding polymer and pigments developed for one purpose: to create a new material with its own depths and character and a unique aesthetic, suggesting a sense of enlightened luxury and an attitude of bold sophistication. With a cool, fresh look Zodiaq® also has unusual clarity and consistency of colour, qualities that offer great potential for use in both horizontal and vertical applications – Zodiaq® is non-porous and extremely resistant to scratches, chips and cracks. Zodiaq® is the original quartz surface material made by DuPont.

ZODIAQ® QUARZOBERFLÄCHEN

Zodiaq® ist ein hochentwickelter Verbundstoff aus Quarz (93%), einem von DuPont entwickelten Polymer und Pigmenten. Ein neuer Werkstoff mit Tiefenwirkung, individuellem Charakter und einzigartiger Ästhetik voller Eleganz und Raffinesse. Zodiaq® hat die Klarheit der Quarzkristalle, nimmt Licht auf und reflektiert es. Zodiaq® zeichnet sich außerdem durch seine unverwechselbare Helligkeit und harmonische Farbgebung aus, was es zu einem idealen Material für horizontale und vertikale Anwendungen macht – Zodiaq® ist porenfrei, äußerst kratz- und stoßfest und resistent gegen Rissbildung. Zodiaq® ist der neuartige Werkstoff für Quarzoberflächen von DuPont.
